Project work

Own projects
- is2ei/drone-typetalk
- is2ei/passport-typetalk

Projects I contributed to
- nulab/go-typetalk - Refactored and added new features.
- jenkinsci/typetalk-plugin - Fixed bugs and added new features.
- ansible/ansible - Updated docs for typetalk.py
- mercari/tfnotify - Added Typetalk notification feature.
- markbates/goth - Added support for Typetalk OAuth2.
- avelino/awesome-go - Found some deprecated libraries and removed them.
- crowi/crowi - Improved API key form.
- mingrammer/cfmt - Replaced a deprecated dependency with similar library.
- mozilla-services/socorro - Fixed some issues reported on Bugzilla.
